Tips for Exhibitors

We offer to you the following suggestions and tips to further insure your individual success and the collective security of all. It has shown these areas to be the most vulnerable: money or cash boxes are taken from displays or vehicles. Goods or personal items are taken from vehicles. Items are taken from displays. Bogus currency and fraudulent credit cards are used. While these incidents are not high in number, they are tragic for the individual victim. By following the suggestions below, being alert and using common sense, loss will be reduced to a minimum.

1. Two people at each booth will assure maximum security; however, there should always be one person present.
2. Keep personal items to a minimum. Do not bring valuables that are unnecessary. Credit cards and cash should be carried on your person.
3. Do not bring more cash than necessary to operate. The safest place for this is on your person. If you use a cash box, put it in the place least accessible to others. Most of the thefts that occur involve the removal of cash from the cash box or the box itself, by stealth, while the exhibitor is distracted.
4. Be aware of what is going on around you, especially at the most crowded times and while setting up or taking down your display. Thieves will work together to distract you, i.e. one will talk to you in front while another will move to the side or rear of your booth. They are also apt to be looking for an opportunity to help themselves while you are busy putting things away at the end of a busy day.
5. Display your goods in a way that will make a missing item apparent very quickly. Even larger items should be attached to the display as securely as possible so as to discourage easy removal. Smaller items are better displayed in cases that can be locked.
6. In credit card transactions, obtain other identification with picture, if possible. Carefully check for card alterations and check against missing or stolen card listings.
7. In the event you are involved in an incident, obtain the best possible description of sex, age, height, weight, color of hair and clothing worn. If possible, write it down. Promptly report it to the nearest police officer.
8. We have little to none of this yearly, but it can and does happen here and at other art festivals.
